Whatever your online needs, FIRE Middle East magazine online has the solution

THE WEBSITE

Since the launch in January 2008 of www.firemiddleeastmagazine.com the magazine and website combined has firmly established itself as the most successfully integrated media platform in the GCC and Middle East region for fire and safety professionals. Following in the steps of its sister website www.securitymiddleeastmagazine.com, the *FIRE Middle East* magazine website continues to grow rapidly. With an average of 12,000 hits per month it confirms that our readers value both print magazine and website as an equally integral resource for fire professionals in the region.

As well as being able to read an online version of the print magazine, visitors can keep up-to-date with the latest news stories as well as access and contact key fire and safety product suppliers and distributors. Ranked No. 1 on *Google*, the website is well optimised and provides a range of branding and interactive services including – homepage web banner and buttons, online directory, product showcase and corporate videos.

SOCIAL MEDIA

As part of our drive to increase our social media presence we are offering all advertisers the chance to tweet news and product information via the *Fire Middle East* Twitter account. With a rapidly growing audience Twitter has become a key communication tool in today's business world.

Whatever your online needs – *FIRE Middle East* magazine online has the solution.

TARGETED E-MAILS

To ensure *FIRE Middle East* magazine stays interactive with its readers, every month we email an ezine/newsletter to our 'opt in' database of over 40,000 senior advisors, buyers, installers, integrators and end-users. This email service allows advertisers to promote their latest products and services directly to our readers. This information is then hosted on our website for a further month to increase visibility.

If you are also interested in sending out a bespoke email directly to our readers then you can have access to our data base via the Solus Email service we offer. This email will be dedicated to your company, product and service with all links and traffic channelled back to you. Both Ezine and Solus emails are a very effective way to increase brand awareness, traffic and business.

THE INTERACTIVE MAGAZINE

FME and SME's fully interactive magazine, in association with Intersec and a number of other key trade shows in the region, is unique to the market and enables you to showcase your products and services directly to our subscribers and also all of our media partners members in a totally new format.

If you have a new product you want to demonstrate, showcase, promote or if you simply want to educate the market about an event you're attending then this platform enables you to do just that. Plus all web traffic is channelled directly back to your own site allowing potential clients to get even further information about what your company has to offer. The Interactive magazine is emailed directly to over 200,000 industry professionals across the Middle East region. Visit our website to see the latest live and backdated issues www.firemiddleeast.co.uk.
